Date: _____ 2024 _____

Signature of provider

Signature of co-provider

Application instructions:

The application overleaf must be completed in full.

Annual tax statement: Please note that the income statement must be from 2021.

It is the total combined income of the parents that form the basis for the individual school's allocation of a tuition grant.

If the parents have an estimated personal income or an estimated capital income, this amount must be indicated.

However, the school may take into consideration the individual family's *actual* financial situation when allocating the school's share of the total grant pool.

Income basis: If the parents are married or share a common registered address without being married, the total combined income of both parents must be indicated.

If the parents are divorced, separated or not married and without a shared common registered address, the total income must be indicated for either:

- the parent who has full custody of the child, *or*
- the parent at whose address the student is officially registered if the parents has joint custody.

Application submission:

The completed form is submitted to the school which attests by a signature on the form by a person authorized by the school that the information on the form regarding the parents' income basis is correct in accordance with the annual tax statement.

The annual tax statements (copy) must therefore be enclosed with the application or presented at the school when the application is submitted.
